JW-2ND NEEDLE THRUST BEARING

FORD A4LD

TOYOTA, FICHTEL & SACHS, NISSAN, MERCEDES, ETC.

O.D. 2.36"
I.D. 1.57"
Thickness .125"

THE FIRST CONVERTER BEARING SPECIFICALLY DESIGNED FOR REBUILDERS. EIGHT WAYS SUPERIOR!

- 1 More rollers for increased capacity
- 2 Odd number [33] to eliminate harmonic failures
- 3 Larger diameter [.125"] rollers to minimize shimming
- 4 Shorter rollers positioned to match the flattest part of races
- 5 Double cage construction-prevents roller popout
- 6 Terrific price deal, because you buy direct from manufacturer
- 7 Made in USA
- 8 Let your TRI PRO put some in your hands today
