FW-4-31 BEARING ADAPTER FORD 4R100

Aluminum
Outside diameter - 3.60"
Inside diameter - 2.00"
Height - 0.498"
Related part: TW-2-4 Bearing

Are you substituting a bearing and bearing adapter for the plastic stator cap of the Ford 4R100?

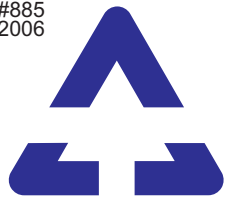

Problem: Are you running into a problem with the bearing touching the rivets?

Solution: The new **FW-4-31** bearing adapter with the **TW-2-4** bearing!

FW-4-31 is used in combination with the **TW-2-4** bearing which fits perfectly on the turbine side of the stator. It eliminates the possibility of contact with the turbine hub's rivets.
