A Message From TRI

Welcome to
TRI COMPONENT PRODUCTS!

We have been innovators and suppliers to the Automatic Transmission Industry since 1966. This catalog is the latest version, and includes a full listing of our “*Fast Moving*”, “*Hard to Find*”, and “*Problem Solver*” parts. We have developed our product line through years of research, market experience and from feed back from customers, like yourself. We have designed the catalog to be comprehensive and easy to use.

TRI COMPONENT PRODUCTS has always been located in The Bronx, New York, and we take special pride in the members of our various departments and support teams. Our staff is made up of dedicated people, many who’ve been here for five years or more, in fact, a large number have been on the team for ten or fifteen.

Our purpose is to provide you, our customer, with fast, reliable service as well as precise, durable products at a very competitive price.

We all look forward to working with you.

Governors

Tri Component has been manufacturing governors for over twenty years.

From this experience we have become a major supplier to the industry.

All Allison governors are tested 100% on the G.M. approved testing machine and come packed with certification. Other governors are tested hydraulically on a statistical basis on our own special equipment. All governors are shipped from stock.

We will assemble additional part numbers from our huge component inventory if a specific OE number is required.

We also build custom applications and high performance governors to your specification.

Planetary Washer Repair Kits

All bronze washers are premium OE grade phosphor bronze. Washers are grooved as specified by OEM. Tri Component kits will give the expected service life, while "economy" washers will not. Other planetary washers and kits can be produced to your requirements. Optional tin-lead plating available.
